

**GENERAL CONCLUSIONS:**

Considering all above-mentioned issues the Evaluation commission will advise the Board of FIBA Europe to consider Slovenia as a very strong candidate to host the EuroBasket 2013. Nevertheless, there shall be more guarantees requested to assure that all of the Host cities will be ready in time to host the event and there shall be no obstacles to host an event of such magnitude and to achieve all of the stated goals. Strong will and involvement of the Government of Slovenia shall be essential to achieve such results.
